## New websites

The past half year POS Factory International and Flags and More have been working hard on new websites. At the end of April the websites are launched. Now you will find our up to date offer and extra information also online. Check out our new websites: [www.pos-factory.com](http://www.pos-factory.com), [www.floorlogo.nl](http://www.floorlogo.nl) and [www.flagsandmore.nl](http://www.flagsandmore.nl).

Also our controlling company Drameco, for everything in the field of metal products, has renewed their website: [www.drameco.nl](http://www.drameco.nl).

## Huge POS project

Almost a year ago we received an urgent request by a large American corporation, VF International (a.o. Vans and Reef). Due to our good and quick service with this first project and following projects, we gained trust and as a result of that the corporation chose us to take care of a huge project: producing over 13 thousand dealer boxes and filling them with several POS products.

Within a bit more than 4 weeks we took care of this project:

- 2 days design
- 3 weeks production
- 1 week co-packaging

The boxes are divided over 7 types, all filled with a different choice of POS materials like banners, stickers, cubes and 3D displays.

VF International is very pleased with POS Factory International:

*“The quality of the execution and service supplied by POS Factory has always been of the highest standard. Your team has gained a good understanding of our business and its systems ensuring a speedy and efficient delivery of the numerous projects we have worked on.”*
