

NEW! PRINTED FLOOR MATS

Unused floor space is great to use for communication. When people are entering a shop or office, the floor mat outshines immediately when wiping their feet. Also your brand or organization will outshine if the mat is printed with your logo, message or image. Our floor mats are of high quality, proof against frequent use and machine washable. This makes the product very suitable for use in offices, shops and other public places.

Our product range is extended with two different printed floor mats.

Rubber mat

Material: nylon/tufted surface with nitrile rubber

Printing: sublimation

Size: 40 x 60 cm, 85 x 60 cm, 85 x 120 cm

PVC mat

Material: velour polyamide surface with PVC

Printing: screen printing

Size: 40 x 60 cm, 80 x 60 cm, 80 x 120 cm

Thickness: 1,8 mm

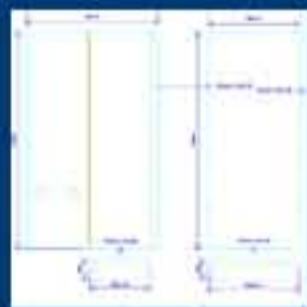

COMPLETE SERVICE FROM ENQUIRY TO DELIVERY

Except production of a great range of POS materials we also take care of the service. A nice example of this is the project we have done for Hirschmann. The multimedia company came to us with a description of their idea of a display that we converted into a concrete design. We produced the displays, set them up, provided them with hooks and filled them with the by Hirschmann supplied goods. After that the displays were made ready for transport and delivered at the organization per piece on a pallet.

Are you looking for extra services as co-packaging, storage and transport directly to your customers/dealers? Please contact us to discuss the possibilities. We have years of experience with these extra services.

LAUNCHING OF HONDA JAZZ

Honda Acces Europe trusts on POS Factory International for their POS projects for several years. In March they will launch the new Honda Jazz Hybrid in Europe and also for this we take care of the promotional materials for the showrooms, existing of eclipse displays, light boxes and poster sets. Check www.honda.nl for images of this car.
