

## CARDBOARD AS STRONG AS IRON!

Because of our new material Falcon board (better known as Re-board), we are able to supply a complete new product line. The material exists of a unique cardboard sandwich construction. Because of this, the material is lightweight but at the same time extremely strong. The cardboard construction is visible on the sides which gives it a robust and ecological look. Of course the edges can be covered with a strip if necessary. The material has endless possibilities and is useable for the production of promotional and long term displays, furniture, printed plates and tradeshow booths.

## VANS DEALER BOXES

Taking care of producing, packing and transporting dealer boxes is something in which we have experience for years. That is one of the reasons that we were able to cope with the large quantity dealer boxes for VF International (Vans). The four different boxes were filled with banners, cubes, stickers and wallpaper. These dealer boxes are produced, packed and delivered in a very short amount of time.

## LIBBEY LEERDAM CHOOSES POS FACTORY INTERNATIONAL

Libbey Leerdam is one of the market leaders in the field of high quality glassware. The assortment of the company is one to be proud of. Because of that, it's important that the point-of-sales materials match the luxury and quality of the products. The banners, made by part of the company Flags and More\*, are decorated with pictures of drinking glasses. Because of the high quality polyester, the pictures are sharp and showed very well.

*\*Flags and More is part of POS Factory International, especially for everything in the field of flags and banners. For more information, please check [www.flagsandmore.nl](http://www.flagsandmore.nl)*

**NOTHING IS TOO CRAZY,  
EVERYTHING IS POSSIBLE!**

## NOTHING IS TOO CRAZY...

Many people have probably seen our new brochure in August, but for the ones who were enjoying their holiday back then, we herewith resend this. In this brochure you will find our 'crazy things': special and odd point-of-sales materials like 3D foam logo's, wooden card holders and wallpaper. The brochure will give you a clear impression of our possibilities. After all, POS Factory International is not the biggest, but the most complete!
